First 15 Lessons - Bass Guitar

2018-01-01

A very thorough study of blues bass lines covering many different blues styles from Texas swing to jazz and rock blues along with specific instruction and analysis. Plenty of sample blues bass lines are included great for beginners to advanced players. This book will teach you everything you need to know to play the blues in notation and tablature. This package includes a play along stereo online audio recording demonstrating most of the exercises in the book. Most of the exercises are recorded with bass and drums only with the last few lessons adding electric guitar includes access to online audio.

Complete Blues Bass

2016-01-05

For beginner blues bass players covers the most common blues progressions turnarounds scales riffs and techniques in a variety of blues styles and techniques. Include walking bass jazz blues reggae rock blues Latin blues harmonics and slap technique.

Progressive Blues Bass

2023-03-24

Welcome to the school of the blues lesson series this book and recording were created to help give you context to all the music you worked so hard to learn. The recorded play along trax have no bass this gives you the opportunity to work on your blues bass patterns. I have used several different keys and tempos throughout these play along trax. These play along trax give you a very realistic example of how you would play live with a band. Music examples are kept fairly simple to make sure this book is accessible to bass players just above the beginning level. For best understanding of these techniques refer to mel bay’s blues bass level 1 mb21063bcd. Lastly all the references in this book are written for a right handed four string electric bass. You play a 5 string bass you just need to extend the examples to include your B string. If you play left handed then you need to reverse any references to the left and right hands. We will use standard music notation along with bass tablature. Tab for this book includes access to online audio.

Blues Bass Play-along Trax

2015-08-15

First lessons bass is intended to introduce beginning students to the fundamental concepts of playing the electric bass. The material covered in this book is approximately the material covered in the first 8 lessons of private bass instruction. This book makes use of the 3-finger left hand position commonly found in double bass technique. The emphasis on left hand technique allows the student to develop a consistent fingering approach to the fingerboard reduces unnecessary strain on the left hand and makes the bass more accessible to younger students or students with small hands. After the left hand technique has been established the book introduces the student to important elements of bass line construction including blues patterns, the root fifth relationship and common rhythmic patterns.
