or her powers and knowledge to further generations exploring the history of occult practices in Russia including how Christianity had a profound effect upon magic and witchcraft Helvin shows how attempts to forcibly convert the Russian population to the Christian faith were widely resisted and instead of these ancient pagan practices disappearing they blended with Christian belief authorities repainted old pagan gods as demons in order to eradicate ancient traditions black magic became labelled as defiantly anti-Christian simply for preserving the old ways and as a result some branches of black magic evolved as a reaction against enforced Christianity and practitioners proudly accepted the label of blasphemer or heretic through this book readers can explore the left hand path of Russian magic and its spells and rituals the author explains about cemetery magic sacrifices the creation of hell icons and places of power such as crossroads swamps and abandoned villages as well as the best times to practice black magic how to choose the best grave for your spell and how to summon demons providing many concrete examples of spells Helvin demonstrates the broad range of what can be accomplished by those who practice the black arts if they commit themselves to the craft this book provides information about the karma and curses that are attached to the practice of black magic the author discussed the importance of the protection spell in the practice of witchcraft the consequences that a practitioner may face if the hex will be reversed the adverse effects of love spell in one's mind and many more if you want to know more about the karma and curses that anyone may get from the practice of black magic grab your copy of this book now thank you everything you need to know about casting spells mixing up elixirs and making magic the ordinary fields of psychological inquiry largely in possession of the pathologist are fringed by a borderland of occult and dubious experiment into which pathologists may occasionally venture but it is left for the most part to unchartered explorers beyond these fields and this borderland there lies the legendary wonder world of theurgy so called of magic and sorcery a world of fascination or terror as the mind which regards it is tempered but in either case the antithesis of admitted possibility there all paradoxes seem to obtain actually contradictions coexist logically the effect is greater than the cause and the shadow more than the substance therein the visible melts into the unseen the invisible is manifested openly motion from place to place is accomplished without traversing the intervening distance matter passes through matter there two straight lines may enclose a space space has a fourth dimension and untrodden fields beyond it without metaphor and without evasion the circle is mathematically squared there life is prolonged youth renewed physical immortality secured there earth becomes gold and gold earth there words and wishes possess creative power thoughts are things desire realises its object there also the dead live and the hierarchies of extra mundane intelligence are within easy communication and become ministers or tormentors guides or destroyers of man there the law of continuity is suspended by the interference of the higher law of fantasia but unhappily this domain of enchantment is in all respects comparable to the gold of faerie which is presumably its medium of exchange it cannot withstand daylight the test of the human eye or the scale of reason when these are
applied its paradox becomes an anticlimax its antithesis ludicrous its contradictions are without genius its mathematical marvels end in a verbal quibble its elixirs fail even as purges its transmutations do not need exposure at the assayer’s hands its marvel working words prove barbarous mutilations of dead languages and are impotent from the moment that they are understood departed friends and even planetary intelligences must not be seized by the skirts for they are apt to desert their draperies and these are not like the mantle of elijah if you want to harness the elementary forces of fire then keep reading fire is almost hypnotic have you ever sat and stared into the flickering of a candle’s flame or listen to the crackling of a campfire it is one of the four elements within wicca and it is the only one that will immediately harm the body when directly touched but fire is also associated with the god reminiscent of the burning energy of the sun that bathes our planet in energy that gives us life it drives our passions and our ability to create but it can also be the destructive portion of the cycle of life and death it is good and bad it is life saving and life threatening fire is powerful and that makes it particularly worthy of being treated with the reverence it commands when tapping into the element of fire to harness its power you will primarily use candles candle magic is a way to channel the elementary forces of fire into specific intentions which can manifest into tangible and intangible forms such as more money in your bank account or opening your mind and heart to welcome good luck and repel negative energies no matter if you re part of a coven an eclectic pagan or want to find your path as a solitary practitioner wicca candle magic will provide you with the essence of understanding the magical principles associated with fire along with a rich collection of magical candle spells rituals and useful lists of correspondences next to the dual nature of fire you will also discover the dual nature of magic by getting a rare look behind the curtains of what black magic really is all about in this book you will find an introduction to the elementary forces of fire and the role of candles in wiccan magic the basics of selecting the right candles for your magical practices 7 simple steps to cast your first candle spells recommended candle types when you start with wicca candle magic detailed guidance on cleansing and consecrating anointing and coating candles to amplify your spells using anointing oils and herbs carefully selected candle spells to foster love and relationships 4 powerful ways to send your intentions out into the universe startling spells to attract money and success including a 7 and 9 days spell how to absorb negative energy with a powerful crystal everyone has in their kitchen practical candle spells for health luck and life enhancement what to exactly look for in a candle to achieve the highest effect when crafting spells a foray into the art of black magic and the metaphysical balance between white and black magic controversial spells using black magic how to use black magic to empower the good in the world and so much more while wicca candle magic provides you a multitude of spells and tables of correspondences to start your magical work right off the bat it will also show you the much bigger picture to understand the elementary forces of fire even if you’re a beginner you will quickly improve your ability to shape the circumstances of your life through the power of candle magic so if you want to harness the elementary forces of
