*A Text Book of Clinical Pharmacy Practice* 2004 the majority of clinical pharmacy textbooks focus on disease states and
applied therapeutics, this book is different. It aims to provide readers with a comprehensive description of the concepts and skills that are the foundation for current clinical pharmacy practice. It seeks to answer the question, how do clinical pharmacists practice rather than what do clinical pharmacists need to know about drugs and therapeutics. The book is divided into three sections and each chapter is self-contained and can be read independently. Section I provides an overview of the current status of clinical pharmacy practice in India and other countries. Section II includes chapters on the key concepts, skills, and competencies required for effective clinical practice. Section III covers topics of interest to graduate and postgraduate students and more experienced clinical pharmacists and researchers. This book will be useful for all students of pharmacy and pharmacists working in hospital pharmacy, community pharmacy, drug or medical information, clinical research, government, and nongovernment organisations.
