Drosophila melanogaster is a model organism that has been used extensively in the study of the genetic basis of environmental adaptation. This species originated in Sub-Saharan Africa and has since colonized a wide variety of habitats as a human commensal, making it a valuable system for studying environmental adaptation despite its complex demographic history.

**African American History Wikipedia Nov 13 2023**

African American history started with the arrival of Africans to North America in the 16th and 17th centuries. Former Spanish slaves who had been freed by Francis Drake arrived aboard the Golden Hind at New Albion in California in 1579. The European colonization of the Americas and the resulting Atlantic slave trade led to a large scale.
