leading scholars on the narrative function of embedded Jewish scripture texts quotations or allusions in early Christian gospels while the contributors employ a diverse range of methods their research is directed towards considering the function of embedded scripture texts in the context of the gospels as self-contained narratives written and read heard in their early Christian settings the essays are arranged according to their appropriate methodological categories the common supposition that the fourth gospel presents a rivalry between Peter and the beloved disciple in which Peter is subordinated to the hero of the Johannine community is here subjected to fresh scrutiny after establishing working hypotheses regarding the Johannine community and the function of representative figures in the fourth gospel the author first examines the function of Peter independently of the beloved disciple here he is the exemplary leader of the twelve in those passages where the two characters are juxtaposed it is evident that the beloved disciple is not inordinately exalted above Peter who in fact enjoys a comparable status Peter and the beloved disciple have complementary roles to play in relation to Jesus and his unfolding hour John 20 shows the beloved disciple as the example of a true believing disciple of Jesus while concerned to give appropriate respect and support to the apostolic stream of traditions associated with Peter the gospel appendix ch 21 is concerned to hold together both sorts of traditions and allegiances finally the author shows how the gospel as a whole works coherently to encourage a wider view of

A book for all who want to respond to Jesus’ challenge to go and make disciples. 5 interactive puzzles, 25 crossword puzzles, 50 word searches, 38 mystery puzzles, and answers for children ages 8-14. 1430 pp. This book explores biblical values that critique the ecclesiology of the New Apostolic Reformation Church (NARC) and compares the ecclesiology to other missional movements in the North American context. A biblical exegesis of Ephesians 4:11-13 as well as C. Peter Wagner’s conceptualization of an apostle and apostolic ministry allow the author to demonstrate the gap between the biblical perspective and Wagner’s concept of an apostle. The biblical role of an apostle is to make the church missional by emphasizing the concept of sending whereas Wagner sees the apostle as a church leader. Based upon interviews and participant observation in three NARCs, Su Yeon Yoon describes the leadership and ecclesiology based on their own self-descriptions. This book then demonstrates the gap between the biblical and conceptual ideals and the reality of ecclesial practice. The author argues that the NARC serves as a charismatic
manifestation of a similar cultural response to establish a relational structure for church communities that can appropriately reflect upon and identify with the contemporary context this implies that each movement needs to be biblically sound faithful to its conceptualization and relevant to the context in order to cultivate its own way of being the church this book explores mormon theology in new ways from a scholarly non mormon perspective bringing jesus and satan into relationship with joseph smith the founding prophet douglas davies shows how the mormon plan of salvation can be equated with mainstream christianity s doctrine of the trinity as a driving force of the faith exploring how jesus has been understood by mormons his many mormon identities are described in this book he is the jehovah of the bible our elder brother and father probably also a husband he visited the dead and is also the antagonist of satan lucifer this book offers a way into the mormon problem of evil understood as apostasy from pre mortal times to today three images reveal the wider problem of evil in mormonism jesus pre mortal encounter with lucifer in a heavenly council deciding on the plan of salvation jesus christ s great suffering engagement with evil in gethsemane and joseph smith s first vision of the divine when he was almost destroyed by an evil force douglas davies well known for his previous accounts of mormon life and thought shows how renewed mormon interest in theological questions of belief can be understood against the background of mormon church organization and its growing presence on

Wittenberg controversy the cross is a flashpoint in China. Korea seeks ecclesiastical reform; the mystical union thrives in Laos. Even Kant whispers in old Batavia. The diversity of ideas and influences of the Reformation is as broad and fascinating as the continent resisting reduction to the postcolonial movement and demonstrating an affinity with Protestant foundations that somehow remains uniquely Asian. This volume brings together the reflections of Christian academics from the continent to offer a sample of the theological work that remains largely inaccessible to the broader scholarly community with contributions in the fields of theology, biblical studies, philosophy, and Christian higher education. If the quincentennial of the Reformation has revealed anything, it is the inauguration of Asia as the locus of biblical and theological scholarship for the next five hundred years. In a two-volume work, Eckhard J. Schnabel offers a comprehensive and definitive examination of the first century of missionary expansion from Jesus to the last of the apostles.

Publisher's description: One of the intriguing questions in the study of the period of the Reformation of Judaism after the destruction of the second temple is the identity of a group which appears in hundreds of Talmudic sources from those days. The Minim. It is clear that most of these sources reflect different facets of the polemic between Judaism and Christianity, which were both engaged in establishing their identities. This book concentrates mainly on the second century CE and includes two basic questions: the question of the earliest text of the twelfth blessing of the...
central jewish prayer composed at that time birkat haminim and the question of the identity of those minim who are cursed in this blessing in the first section of the book yaakov yanki teppler analyzes the blessing itself in the second section which concerns the question of its principal objects he sets out on a quest for the characterization of the minim using all the hundreds of sources which deal with them having united these two sections in one framework a proposal is made as to the identity of the minim this proposal should provide a coherent basis for further research on this subject laying a firm foundation for understanding the processes of separation between judaism and christianity in this stormy and fascinating period from ancient times the gospel of matthew has been regarded as the church gospel its aims are preeminently catechetical pastoral and missionary but recent research raises many questions regarding matthew s creation theological intentions and shaping for the circle of its first recipients this highly original commentary by rudolf schnackenburg follows matthew chapter by chapter and verse by verse carefully explaining and interpreting the text against both its primitive and current horizons schnackenburg sees matthew s purpose as simply the proclamation of christian salvation his commentary gives extra attention to the great discourses of jesus found in matthew such as the sermon on the mount showing how jesus words and works have special currency for the self understanding of the church and for the task of christian living today written by a master exegete.
with a pastor’s sensitivity this commentary will fast become a classic study of Matthew’s gospel. Now available for the first time in English, Karl Ludwig Schmidt’s _The Framework of the Story of Jesus_ has been a foundation of New Testament studies through meticulous analysis. Schmidt demonstrates that the Synoptic Gospels are collections of individual stories that circulated orally and independently in the earliest Christian communities. Schmidt shows persuasively how in their oral forms most of these traditions existed apart from any sequence or specific temporal or geographic location and that the chronology and locations now evident in the gospels were applied by the evangelists while collecting and recording the oral traditions across much of the twentieth century and even into the present day. Schmidt’s thesis has undergirded gospel interpretation yet as long as the framework of the story of Jesus remained untranslated, Schmidt’s ideas have been open to neglect and misinterpretation among Anglophone scholars. Discussion of the Synoptic Gospels and broader New Testament study will be enriched by engagement with the evidence and argument as originally presented.

IVP Readers Choice Award Mission Missions Missional and all its linguistic variations are part of the expanding vocabulary and rhetoric of the contemporary Christian missionary enterprise. Its language and assumptions are deeply ingrained in the thought and speech of the church today. Christianity is a missionary religion, and faithful churches are mission minded. What's more, in telling the story of apostles and bishops and monks as missionaries, we think we have grasped the true thread of Christian history. But what about those odd shapes, those unsettling gaps and creases in the historical record? Is the language of mission so clearly evident across the broad reaches of time? Is the trajectory of mission really so explicit from the early church to the present? Or has the modern missionary enterprise distorted our view of the past?

As with every reigning paradigm, there comes a point when enough questions surface to beg for a close and critical look even when it may seem transgressive to do so. In this study of the language of mission, its origin, development, and application, Michael Stroope investigates how the modern...
church has come to understand speak of and engage in the global expansion of christianity there is both surprise and hope in this tale and perhaps the beginnings of a new conversation the strong relationship between the bible and the sacraments of the catholic church is generally accepted in theology this monograph approaches this relationship from a synchronic perspective this fresh perspective opens up new windows providing insight into similarities found in the various rites in and outside the catholic church for example the basic biblical pattern of the celebration of the eucharist last supper appears to be standard it also poses critical questions regarding sacramental theology in general especially to the problematic equation of the proper name jesus and the title christ

**The Twelve Disciples** 2021-08-03 narrative discipleship examines the thematic and theological impact of women in the gospel of Mark using narrative analysis. Aeranie explores how Mark intentionally crafts the narratives of women in the gospel to extend his portrait of discipleship. Mark portrays these women as exemplars of four key aspects of discipleship: restored life, kingdom speech, sacrificial action, and cruciformity. These portraits of discipleship provide a transformative paradigm for Mark’s audience. Mark creates a portrait of narrative discipleship as a means to encourage his audience toward embodied discipleship and faithful participation in God’s kingdom.

**Narrative Discipleship** 2018-07-26 redaction criticism attempts to identify biblical authors’ theological interests by examining their adaptation of sources focusing on representative studies of Jesus disciples in the Gospel of Mark. This pioneering book by C. Clifton Black has become the standard evaluation of that method’s exegetical reliability. Comprehensively reviewing recent scholarship, Black identifies three distinctive types of redaction criticism in Markan interpretation. He demonstrates that diverse redaction critical interpretations of the disciples in Mark have bolstered rather than controlled scholarly presuppositions to a degree that impugns the method’s
reliability for interpreting mark the book concludes by assessing redaction criticism’s usefulness and offering a more balanced approach to mark’s interpretation this second edition includes a substantial detailed afterword that revisits the book’s primary issues converses with its critics and provides an update of markan scholarship over the past twenty five years

*Types of Authority in Formative Christianity and Judaism* 2011-11 David Moessner proposes a new understanding of the relation of Luke’s second volume to his gospel to open up a whole new reading of Luke’s foundational contribution to the New Testament for postmodern readers who find Acts a generic outlier dangling tenuously somewhere between the mainland of the evangelists and the Peloponnese of Paul diffused and confused and shunted to the backwaters of the New Testament by these signature corpora, Moessner plunges his readers into the hermeneutical atmosphere of Greek narrative poetics and elaboration of multi-volume works to inhale the rhetorical swells that animate Luke’s first readers in their engagement of his narrative in this collection of twelve of his essays re-contextualized and re-organized into five major topical movements, Moessner showcases multiple hellenistic texts and rhetorical tropes to spotlight the various signals Luke provides his readers of the multiple ways his acts will follow all that Jesus began to do and to teach Acts 1:1 and consequently bring coherence to this dominant block of the New Testament that has long been split apart by collapsing the world of Jesus into the words and deeds of his followers. Luke re-configures the significance of Israel’s Christ and the reign of Israel’s God for all peoples and places to create a new account of Gospel Acts discrete and distinctively different than the narrative of the many Luke 1:1 Luke the historian of Israel’s legacy combines what no analysis of the lukan writings has
previously accomplished integrating seamlessly two generically estranged volumes into one new whole from the intent of the one composer for luke is the hellenistic historian and simultaneously biblical theologian who arranges the one plan of god read from the script of the jewish scriptures parts and whole severally and together as the saving script for the whole world through israel s suffering and raised up christ jesus of nazareth in the introductions to each major theme of the essays this noted scholar of the lukan writings offers an epitome of the main features of luke s theological thought and in a final conclusions chapter weaves together a comprehensive synthesis of this new reading of the whole

Healing Power, Voice Activated 2006-06-23 the common supposition that the fourth gospel presents a rivalry between peter and the beloved disciple in which peter is subordinated to the hero of the johannine community is here subjected to fresh scrutiny after establishing working hypotheses regarding the johannine community and the function of representative figures in the fourth gospel the author first examines the function of peter independently of the beloved disciple here he is the exemplary leader of the twelve in those passages where the two characters are juxtaposed it is evident that the beloved disciple is not inordinately exalted above peter who in fact enjoys a comparable status peter and the beloved disciple have complementary roles to play in relation to jesus and his unfolding hour john 20 shows the beloved disciple as the example of a true believing disciple of jesus while concerned to give appropriate respect and support to the apostolic stream of traditions associated with peter the gospel appendix ch 21 is concerned to hold together both sorts of traditions and allegiances finally the author shows how the gospel as a whole works coherently to encourage a wider view of christian intercommunity unity after the death of the beloved disciple

Biblical Interpretation in Early Christian Gospels Volume 1 2024-03-01 this book explores biblical values that critique the ecclesiology of the new apostolic reformation church narc and compares the ecclesiology to other missional movements in the north american context a biblical exegesis of ephesians 4 11 13 as well as c peter wagner's conceptualization of an apostle and apostolic ministry allow the author to demonstrate the gap between the biblical perspective and wagner's concept of an apostle the biblical role of an apostle is to make the church missional by emphasizing the concept of sending whereas wagner sees the apostle as a church leader based upon interviews and participant observation in three narcs suyeon yoon describes the leadership and ecclesiology based on their own self descriptions this book then demonstrates the gap between the biblical and conceptual ideals and the reality of ecclesial practice the author argues that the narc serves as a
charismatic manifestation of a similar cultural response to establish a relational structure for church communities that can appropriately reflect upon and identify with the contemporary context this implies that each movement needs to be biblically sound faithful to its conceptualization and relevant to the context in order to cultivate its own way of being the church

Communist Activities Among Aliens and National Groups 2003-08-31 one of the intriguing questions in the study of the period of the reformation of judaism after the destruction of the second temple is the identity of a group which appears in hundreds of talmudic sources from those days the minim it is clear that most of these sources reflect different facets of the polemic between judaism and christianity which were both engaged in establishing their identities this book concentrates mainly on the second century ce and includes two basic questions the question of the earliest text of the twelfth blessing of the central jewish prayer composed at that time birkat haminim and the question of the identity of those minim who are cursed in this blessing in the first section of the book yaakov yanki teppler analyzes the blessing itself in the second section which concerns the question of its principal objects he sets out on a quest for the characterization of the minim using all the hundreds of sources which deal with them having united these two sections in one framework a proposal is made as to the identity of the minim this proposal should provide a coherent basis for further research on this subject laying a firm foundation for understanding the processes of separation between judaism and christianity in this stormy and fascinating period

A Light to the Nations 2018-11-09 from ancient times the gospel of matthew has been regarded as
the church gospel its aims are preeminently catechetical pastoral and missionary but recent research raises many questions regarding matthew s creation theological intentions and shaping for the circle of its first recipients this highly original commentary by rudolf schnackenburg follows matthew chapter by chapter and verse by verse carefully explaining and interpreting the text against both its primitive and current horizons schnackenburg sees matthew s purpose as simply the proclamation of christian salvation his commentary gives extra attention to the great discourses of jesus found in matthew such as the sermon on the mount showing how jesus words and works have special currency for the self understanding of the church and for the task of christian living today written by a master exegete with a pastor s sensitivity this commentary will fast become a classic study of matthew s gospel

**A Christology of Solidarity** 2004 now available for the first time in english karl ludwig schmidt s the framework of the story of jesus der rahmen der geschichte jesu has been a foundation of new testament studies through meticulous analysis schmidt demonstrates that the synoptic gospels are collections of individual stories that circulated orally and independently in the earliest christian communities schmidt shows persuasively how in their oral forms most of these traditions existed apart from any sequence or specific temporal or geographic location and that the chronology and locations now evident in the gospels were applied by the evangelists while collecting and
recording the oral traditions across much of the twentieth century and even into the present day. Schmidt's thesis has undergirded gospel interpretation yet as long as the framework of the story of Jesus remained untranslated, Schmidt's ideas have been open to neglect and misinterpretation among anglophone scholars. Discussion of the Synoptic Gospels and broader New Testament study will be enriched by engagement with the evidence and argument as originally presented.
