Since the internet speeds went above the 500kbps mark, the number of things people can do with their interconnected devices skyrocketed. Automated homes, connected cars, and internet-enabled TVs—the latter is what threatens to revolutionize the entertainment world as we know it. Do away with cable TV and abolish the need for expensive Blu-ray players. Even though smart TVs are so lucrative, most people find them either too costly or limiting. The alternative would be going for a TV with an HDMI port, a USB port, and purchasing a dongle to bring in the power of internet TV. Chromecast is one of the best and cheapest such tools in the market.

It's hard to see how anyone is ever going to better this user's manual to the life of Georges Perec. Gilbert Adair Sunday Times winner of the Prix Goncourt for biography 1994, George Perec 1936-82 was one of the most significant European writers of the twentieth century and undoubtedly the most versatile and innovative writer of his generation. David Bellos's comprehensive biography which also provides the first full survey of Perec's irreverent polymathic oeuvre explores the life of an anguished, comical and endearingly modest man who worked quietly as an archivist in a medical research library. The French son of Jewish immigrants from Poland, he remained haunted all of his life by his father's death in the war fighting to defend France and his mother's in Auschwitz Birkenau. His acclaimed novel A Void 1969 written without using the letter e has been seen as an attempt to escape from the words père mere and even George Perec's career made an auspicious start with Things a Story of the Sixties 1965 which won the Prix Renaudot. He then pursued an idiosyncratic and ambitious literary itinerary through the intellectual ferment of Paris in the 1960s and 1970s. He belonged to the Ouvrier de littérature potentielle (Oulipo), a radically inventive group of writers whose members included Raymond Queneau and Italo Calvino. Perec achieved international celebrity with Life a User's Manual 1978 which won the Prix Medicis and was voted novel of the decade by the Salon du Livre. He died in his mid forties after a short illness leaving a truly puzzling detective novel 53 Days Incomplete. Professor Bellos's book enables us at once to relish the most wilfully bizarre aspects of Perec's oeuvre and to understand the whys and wherefores of his protean nature. Jonathan Romney, Literary Review
