this is the answer key of volume 10 of the entire set of 12 volumes of word problems solving strategies if you want to set a solid foundation in math grasping the techniques on solving word problems is the key to it this set of books teaches you the techniques and strategies you need to solve word problems sample question in this volume in a math contest among first place second place and third place winners 2 5 of them got first or second places 9 10 of them got second or third places what fractional part of the winners got second place reasoning and solution in the question we need to deal with only fractional parts so all the winners are in 1 whole all from 2 5 of them got first or second places we deduct the fractional part that first or second place winners are in 2 5 from 1 to find the fractional part that third place winners are in 1 2 5 3 5 from 9 10 of them got second or third places we deduct the fractional part that second or third place winners are in 9 10 to find the fractional part that first place winners are in 1 9 10 1 10 now we
know that third place winners are in the fractional part of 3 5 and that first place winners are in the fractional part of 1 10 so we deduct these two fractional parts from 1 to find the fractional part that second place winners are in 1 3 5 1 10 10 6 10 1 10 3 10 second place winners are 3 10 of all the winners the techniques and strategies on finding the average amount and on using formulas to find the surface area and volume of rectangular solids and cubes are also covered in this volume there is more in the volume than what is mentioned detailed explanations of the reasoning and solving strategies for each and every problem in volume 10 are given in this book
