A Handbook on the Steam Engine 1896

master s thesis from the year 2018 in the subject communications public relations advertising marketing social media grade 1 7 university of potsdam language english abstract with 800 million users worldwide instagram is one of the world s leading social media platforms the reason for the increasing relevance of
Instagram is its mobile local social and visual character which reflects how individuals are currently using social media and will continue to do so in the future. Instagram's combination of emotional, visual content, storytelling, and interaction with the community also makes it a platform that allows brands to differentiate themselves from others to become unique in what are often very saturated markets. While Instagram is a new application and previous research focuses mainly on long-established social media platforms like Facebook, this thesis aims to explore the various strategic perspectives of successful social media marketing on Instagram by developing a theoretical framework and presenting the practical strategies of three very different organisations in a multiple case study design. The framework and the case studies prove that the five identified social media dimensions—content marketing, engagement marketing, influencer marketing, hashtags, and Instagram advertising—are applied in practice but are adapted very individually on each organisation's goals and target group.

This book focuses on the rapidly changing sociology of music as manifested in Chinese society and Chinese education. It examines how social changes and cultural politics affect how music is currently being used in connection with the Chinese dream. While there is a growing trend toward incorporating the Chinese dream into school education and higher education, there has been no scholarly discussion to date. The combination of cultural politics transformed authority relations and officially approved songs can provide us with an understanding of the official content on the Chinese dream that is conveyed in today's Chinese society and how these factors have influenced the renewal of values-based education and practices in school music education in China.
