most scholars believe that the numerous similarities between the covenant code exodus 20 23 23 19 and mesopotamian law collections especially the laws of hammurabi which date to around 1750 bce are due to oral tradition that extended from the second to the first millennium this book offers a fundamentally new understanding of the covenant code arguing that it depends directly and primarily upon the laws of hammurabi and that the use of this source text occurred during the neo assyrian period sometime between 740 640 bce when mesopotamia exerted strong and continuous political and cultural influence over the kingdoms of israel and judah and a time when the laws of hammurabi were actively copied in mesopotamia as a literary canonical text the study offers significant new evidence demonstrating that a model of literary dependence is the only viable explanation for the work it further examines the compositional logic used in transforming the source text to produce the covenant code thus providing a commentary to the biblical composition from the new theoretical perspective this analysis shows that the covenant code is primarily a creative academic work rather than a repository of laws practiced by israelites or judeans over the course of their history the covenant code too is an ideological work which transformed a paradigmatic and prestigious legal text of israel’s and judah’s imperial overlords into a statement symbolically
countering foreign hegemony the study goes further to study the relationship of the covenant code to the narrative of the book of exodus and explores how this may relate to the development of the pentateuch as a whole

Summary: This book is if you've ever wondered about human behavior, wonder no more. In 'The Laws of Human Nature', Greene takes a look at 18 laws that reveal who we are and why we do the things we do. Humans are complex beings but Greene uses these laws to strip human nature down to its bare bones. Every law that he presents is supported by a real-life historical account with an insightful twist. To drive the point home, as you read the book, don't be surprised if you get the feeling that everyone you know, including yourself, is described in the book. Disclaimer: This is an unofficial summary and not the original book. It is designed to record all the key points of the original book.

Leveraging Social Dynamics: 25 Immutable Laws of Dating & Seduction

Robert Greene's 'The 48 Laws of Power' has shaken up the lives of millions. It's wielded by successful business executives, leading actors and musicians, and even by criminal kingpins. But how can you apply its lessons to your life? Perhaps you want to become a modern Machiavelli, perhaps you want to escape the daily grind and realise your true potential and your dreams, or maybe you're just tired of finding yourself the victim of other people's games. But with 48 laws to choose from and a strong possibility that any one of them might seem like a radical overhaul of your habits and thought processes, it can seem overwhelming or impossible to put the laws into practice. Help is at hand. Drawing on our major podcast series exploring the 48 laws of power, this book provides all you need to put the laws into practice and make lasting changes to your life. We reveal the 3 most powerful laws - the ones you should start with and on which all the others build - and the 4 indispensable power principles - the specific rules of thumb and social hacks which explain how the laws really work in the world today. Armed with this knowledge, the 48 laws of power won't be a cool book you glanced through and then shelved; it will change your life.
