are the driving forces that will help make it better popular science gives our readers the information and tools to improve their technology and their world the core belief that popular science and our readers share the future is going to be better and science and technology are the driving forces that will help make it better written by respected scholars and experienced educators this book showcases rules and doctrine of civil procedure at work in the practice of law the book focuses on civil rights both to engage student s by focusing on issues they care out and to illustrate the impact of procedure on real people s experience with the legal system the cases are framed in their historical and social context each chapter contains a well written introduction cases and clear explanations of the doctrine supported by readings highlighting the context of the case as well as review questions and comments which deepen students understanding and clarify key concepts and offers more than forty well crafted problems both for class use and review to help students solidify their understanding of the materials whether used in class or as out of class assignments in class exercises and simulations based on a sample case file are integrated throughout pleadings memoranda transcripts exhibits motions and more all taken from a real case appear in the appendix civil procedure doctrine practice and context consistently emphasizes the skills and values of lawyering as it offers a consideration of social responsibility new to the 7th edition the inclusion of more examples and problem sets to make the materials more accessible and the concepts more concrete the addition of more practice exercises with a focus on one set of case files throughout the book rather than the two that were used in prior editions with the removal of warner v city of new york case files because most professors did not have time to use the warmer case files into their courses issues that are unique to public law litigation are woven throughout the book with practice problems examples comments and questions this revision will make it easier for professors to incorporate these issues into the course professors and students will benefit from practice exercises allow students to learn by doing integrating doctrine practice and context these exercises can be covered in class or instead recommended as content for study groups topics that are especially hard to teach like discovery and those that require a lot of time to teach have been rewritten to respond to adopters requests a case file involving a car accident that is both accessible to first year students and provides good teaching tools for procedure professors to show how a case is litigated from complaint through trial because the case file involves a relatively simple state court case it provides an opportunity to compare state and federal procedural regimes review questions focus on student comprehension broader critical questions are separated out in questions to ponder sections questions are answered in the teacher s manual background material has been integrated to promote critical thinking and engage students with the latest debates over civil procedure new practice problems promote engagement with cutting edge issues like multidistrict litigation the authors are developing an online community for adopters in addition to the teacher s manual to help better facilitate the learning and teaching process for this book written by respected scholars and experienced educators this book showcases rules and doctrine of civil procedure at work in the actual practice of law the procedural and nonprocedural aspects of the cases are framed to hold students interest doctrines reflect
