**Christ in the Classroom** 2018-09-07 if the goal of catechesis is to cultivate an encounter with christ why do religious educators spend so much time focused almost exclusively on ideas and not experiences the reason is that many have never been shown a method that inspires the heart while also instructing the mind jared dees creator of the popular website the religion teacher shows how applying the steps of lectio divina to teaching can reorient religious education toward encountering the person of christ rather than merely sharing information about him in christ in the classroom catholic author and speaker jared dees applies the five steps of lectio divina reading learning meditation prayer contemplation and action to the ministry of catechesis he offers teachers and catechists a practical framework for preparing lessons that broaden the focus of teaching from mostly intellectual learning to also encountering christ in prayer reflection and action using this method
students and catechists come to know intimately the person of Christ at the same time that they are learning the tenets and traditions of the church. Dees shares stories of success and failure from his own teaching experience and he offers dozens of field tested strategies, tactics, and teaching methods to effectively integrate the steps of lectio divina into the classroom or other catechetical setting. Outfitted with these tools both experienced and new religious educators will feel confident in their ability to teach effectively and lead their students to a life changing encounter with Jesus.
