alike programmes like the killing borgen the bridge and the legacy demonstrate widespread fascination with danish style aesthetics and culture as seen through television narratives this book uses familiar alongside lesser known case studies of drama series to demonstrate how the particular features of danish production from work cultures to storytelling techniques and trans national cooperation have enhanced contemporary danish drama s appeal both at home and abroad the era of globalisation has blurred national and international television cultures and promoted regular cross fertilisation between film and television industries important questions have emerged from this context surrounding for example the americanisation of foreign television formats the meaning and practice behind the term quality television and the purpose and efficacy of public service broadcasting beyond the bridge tackles these issues in relation to danish television by examining the so called scaffolded production processes behind the making of quality serials and their thought provoking content drawing on popular motifs from these celebrated dramas such as foreign politics organised crime global warming and the impact of multinational corporations this timely book provides crucial insight into the danish dramas at the forefront of sophisticated forward thinking fictional television water security in the middle east argues that while conflicts over transboundary water systems in the middle east do occur they tend not to be violent nor are they the primary cause of a war in this region the contributors in this collection of essays place water disputes in larger political historical and scientific contexts and discuss how the humanities and social sciences contribute towards this understanding the authors contend that international sharing of scientific and technological advances can significantly increase access to water and improve water quality while scientific advances can and should increase adaptability to changing environmental conditions especially climate change national institutional reform and the strengthening of joint commissions are vital the contributors indicate ways in which cooperation can move from simple coordination to sophisticated adaptive and equitable modes of water management this book examines indonesias strategies and policies to influence regional cooperation in the indo pacific focusing especially on indonesias efforts to be the maritime fulcrum in the indo pacific during president joko widodos jokowi administration from 2014 until the present highlighting the importance of indonesias role in the region in southeast asia and as a founder member of asea the book based on extensive original research provides key insights into indonesias maritime policy decision making since 2014 it discusses the domestic political context in which foreign policy decisions are made provides an explanation for indonesias efforts to project its vision of indo pacific cooperation at the asean level and demonstrates how indonesias strives to maintain a delicate balance in its interactions with blended learning approach combines visual textual and interactive content featuring numerous real world case studies of how businesses use it to increase efficiency and productivity strengthen collaboration and communication and maximize their competitive advantage students learn how it is leveraged to reshape enterprises engage and retain customers optimize systems and processes manage business relationships and projects and more this book examines the connection between religion and violence in the western traditions of the three abrahamic faiths from ancient to modern times it addresses a gap in the scholarly debate on the nature of religious violence by bringing scholars that specialize in pre modern religions and scriptural traditions into the same sphere of discussion as those specializing in contemporary manifestations of religious violence moving beyond the question of the authenticity of religious violence this book brings together scholars from a variety of disciplines contributors explore the central role that religious texts have played in encouraging as well as confronting violence the interdisciplinary conversation that takes place challenges assumptions that religious violence is a modern problem that can be fully understood without reference to religious scriptures beliefs or history each chapter focuses its analysis on a particular case study from a distinct historical period taken as a whole these chapters attest to the persistent relationship between religion and violence that links the ancient and contemporary worlds this is a dynamic collection of explorations into how religion and violence intersect as such it will be a key resource for any scholar of religious studies theology and religion and violence as well as christian jewish and islamic studies the importance of monetary stability as the main objective of central bank policy in a paper money system fixed versus flexible exchange rates small country independent currency the value of monetary sovereignty bibliography index the january 2015 issue of the modern language review after being sentenced to 20 years in the department of corrections luke found himself involved in many tragic heartbreaking and surreal moments behind bars however during those same events god showed himself to be faithful loving and present in creating miracles out of what many would consider impossible situations lukes journey is like joseph s in genesis what many intended for harm god chose to use for good luke shares how even in the worst circumstances god works all things according to his will god doesn t waste a thing leads you through the many miracles that luke witnessed during his incarceration and will show how nothing is wasted when it comes to god and building his kingdom luke spent seven years in prison for a crime he committed but now shares his story of contrition faith and hope for redemption that will inspire others facing great adversity in their lives this new book by the well known anthropologists jean and john l comaroffs explores the global preoccupation with criminality in the early twenty first century a preoccupation strikingly disproportionate in many cases and for most people to the risks posed by lawlessness to the conduct of everyday life ours in an epoch in which law making law breaking and law enforcement are ever more critical registers in which societies construct contest and confront truths about themselves an epoch in which criminology broadly defined has displaced sociology as the privileged means by which the social world knows itself they also argue that as the result of a tectonic shift in the triangulation of capital the state and governance the meanings attached to crime and with it the nature of policing have undergone significant change also that there has been a palpable muddying of the lines between legality and illegality between corruption and conventional business even between crime and policing which exist nowadays in ever greater hyphenated processes manage business relationships and projects and more this book examines the connection between religion and violence in the western traditions of the three abrahamic faiths from ancient to modern times it

this new book by the well known anthropologists jean and john l comaroff explores the global preoccupation with criminality in the early twenty first century a preoccupation strikingly disproportionate in most places and for most people to the risks posed by lawlessness to the conduct of everyday life ours in an epoch in which law making law breaking and law enforcement are ever more critical registers in which societies construct contest and confront truths about themselves an epoch in which criminology broadly defined has displaced sociology as the privileged means by which the social world knows itself they also argue that as the result of a tectonic shift in the triangulation of capital the state and governance the meanings attached to crime and with it the nature of policing have undergone significant change also that there has been a palpable muddying of the lines between legality and illegality between corruption and conventional business even between crime and policing which exist nowadays in ever greater hyphenated complicity thinking through crime and policing is therefore an excursion into the contemporary order of things or rather into the metaphysic of disorder that saturates the late modern world indeed has become its leitmotif it is also a meditation on sovereignty and citizenship on civility class and race on the law and its transgression on the political economy of representation
