for the elementary grades the authors of this history believe that another text on the subject is
justified at this time only by the fact that some of the big ideals for which this country stands should
receive greater emphasis than has been usual these are now more clearly defined than formerly
making it desirable that a text designed as this is for the fifth and sixth grades shall be a helpful
adjunct in teaching them it should include too a treatment of the lives and achievements of some of
the men and women who have influenced the great movements in our national life during recent
years the development of the ideals of liberty and the giving of unselfish service for the good of
mankind have been stressed throughout the book in the preparation of the stories the fact that
america has been not only a refuge for those who sought to escape persecution but a land of
opportunity and of material and moral as well as political progress has been uppermost in the minds
of the authors five connecting chapters are included in the book for the purpose of preparing the
pupils minds for some of the important events of the different periods into which the history is
divided the aim is to establish a viewpoint and to give an interpretative basis for the subsequent
