Rethinking Democracy 2019-01-04

There’s never been a more pressing time to question every aspect of our inadequate democracy. Polly Toynbee’s important book shows the many challenges democracy faces in a world of populism and radical digital change. Margaret Hodge 2018 saw celebrations of the centenary of the Representation of the People Act which marked a decisive step forward. Full universal suffrage this collection of essays explores the problems of democracy and suggests ways it might now be extended and deepened. Investigates if democracy is an unfinished revolution and if democratic politics is currently in retreat. Demonstrates how democratic politics is once again under attack this time from populist nationalists, authoritarian rulers, and new forms of political communication. Argues that if we
lose the art of active citizenship we will lose the freedoms and the rights which democracy has bestowed

following the committee s interim report on voter engagement hcp 323 isbn 9780215078773 which was published in november 2014 and the substantial public consultation which ran subsequently the committee has now brought forward this final report on reengaging the public with elections in the uk the committee s key recommendations are 1 that the government bring forward plans to target those groups including young people british citizens living overseas and people with disabilities who are currently least likely to be registered to vote 2 that the government consider improvements to electoral registration including making registration automatic prompting people to register to vote when they access other public services and registering young people in schools colleges and universities 3 that changes to electoral arrangements including online voting registering closer to or on election day and holding elections at the weekend be piloted in the next parliament with a view to making permanent changes to electoral arrangements ahead of the 2020 general election the committee recognises that the main reasons for low levels of voter engagement are political and serious action needs to be taken by political parties individual politicians and the government to engage more effectively with the public
and convince them of the value of voting if the public is to be re engaged not just with elections but politics more broadly

in the foundational document of modern public opinion research Philip E. Converse's *The Nature of Belief Systems in Mass Publics* 1964 established the US public's startling political ignorance. This volume makes Converse's long out-of-print article available again and brings together a variety of scholars including Converse himself to reflect on Converse's findings after nearly half a century of further research. Some chapters update findings on public ignorance; others outline relevant research agendas not only in public opinion and voter behavior studies but in American political development, state theory, and normative theory. Three chapters grapple with whether voter ignorance is rational. Several chapters consider the implications of Converse's findings for the democratic ideal of a well-informed public: others focus on the political elite who are better informed but possibly more dogmatic than members of the general public. Contributors include Scott Althaus, Stephen Earl Bennett, Philip E. Converse, Samuel Decanio, James S. Fishkin, Jeffrey Friedman, Doris A. Graber, Russell Hardin, Donald Kinder, Arthur Lupia, Samuel L. Popkin, Ilya Somin, and Gregory W. Wawro. This book was originally published as a special issue of *Critical Review: A Journal of Politics and Society*.

This engaging text has been fully updated to offer readers a greater understanding of international, national, and local environmental politics as well as expected future developments at all levels.
