This book explains in depth the real drivers and workings of IT service desk. It reduces the risk of your technology time and resources investment decisions by enabling you to compare your understanding of IT service desk with the objectivity of experienced IT professionals. It contracts and dispute management addresses the law relating to technology projects and the practical procedural and legal issues which arise at each stage. The authors draw on extensive personal experience of successfully managing IT project disputes from their initial stage through to resolution through a range of dispute resolution mechanisms being the only published work in this area relating to English law. The book will be a valuable resource to lawyers acting in connection with procuring an IT project or advising clients on avoidance and resolution of IT project disputes. There has never been an event management manual like this. Event Management 27 Success Secrets is not about the ins and outs of event management. Instead, it answers the top 27 questions that we are asked and those we come across in forums, our consultancy and education programs. It tells you exactly how to deal with those questions with tips that have never before been offered in print. This guidebook is also not about event management best practice and standards. Instead, it introduces everything you want to know to be successful with event management. A quick look inside of the subjects covered:

the philippines between 1902 and 1940 most accounts focus on the months preceding the japanese attack on pearl harbor by examining the years prior to the outbreak of war linn provides a new perspective on the complex evolution of events in the pacific exhaustively researched guardians of empire traces the development of u s defense policy in the region concentrating on strategy tactics internal security relations with local communities and military technology linn challenges earlier studies which argue that army officers either ignored or denigrated the japanese threat and remained unprepared for war he demonstrates instead that from 1907 onward military commanders in both washington and the pacific were vividly aware of the danger that they developed a series of plans to avert it and that they in fact identified even if they could not solve many of the problems that would become tragically apparent on 7 december 1941 long after the aztecs and the incas had become a fading
