general science general studies inspired by trends in u s public libraries this book teaches librarians how to create
a welcoming environment that enriches enlightens and engages their library s growing aging community the
number of adults aged 50 coming to public libraries is steadily increasing these patrons include active healthy
tech savvy professionals people who have little or no computer training retirees travelers and those who have age
related health and behavior issues public libraries have an opportunity to provide services for this growing and
varied group this book teaches librarians how to develop and expand adult public library programming and
services turning their library into a welcoming environment for the aging community public library programs
and services for midlife and beyond offers practical examples in areas including community collaboration
outreach marketing engagement technology and social media funding and lifelong learning it also incorporates
up to date findings from the ala s guidelines for library services with 60 audience best practices examples
gathered by the author from extensive interviews with public librarians and directors illustrate what a range of
libraries is successfully doing for the midlife and beyond community and encourage creative thinking about new
programs and services most business schools use case studies in their courses however these are typically based
on past cases and assigned to students to solve this book describes a new approach for teaching with case studies
which was developed and applied successfully at tum school of management in this approach student teams
write and solve their own case study on a topic concerning current and future businesses a case can thus be on
their own startup or a strategic decision of existing companies during the course the students receive intensive
coaching while selecting and developing the case topic by the course advisors as well as feedback by industry
experts and executives for whom the case is actually a burning question the authors present 17 cases covering
strategic questions for startups and technology companies such as deutsche post bmw ryanair lufthansa

Automobile insurance subrogation in all 50 states is the most thorough, comprehensive, and ambitious anthology
of subrogation-related legal information and insurance resources ever put to paper. It is the last and most
anticipated of the subrogation trilogy and a book which will serve as the bible for any insurance company
writing personal lines or commercial auto policies. It is destined to become the standard work and reference for
attorneys, insurance companies, and subrogation industry professionals. Every year, there are more than 7 million
auto accidents in the United States with a financial toll of more than $300 billion. Nearly 3 million people are
injured and 42,636 people are killed in the overwhelming majority of these accidents. There is at least one party at
fault for virtually every one of these accidents. A policy of automobile insurance provides some sort of claim
payments or benefits in the vast majority of those claims. One or more insurance policies and/or applicable state
law grants the insurer a right of subrogation against a negligent third party whose carelessness caused the
accident. This book is the bible on subrogating those claims. This book covers the nuts and bolts of auto
subrogation in all 50 states, covering every topic imaginable, including PIP, Med Pay, UM, UIM, property claims,
deductible reimbursement, no-fault subrogation, and more. It surveys the laws of every state and provides
descriptions of every type of auto coverage imaginable as well as the statutory case law and regulatory authority
governing every aspect of auto subrogation. If you have subrogation responsibility involving auto claims, you
need this book. It universally covers issues which are indelibly interwoven into the business of auto insurance
including a complete treatment of the laws of all 50 states and the District of Columbia relating to basic and
statutory subrogation rights, mandatory vs. optional insurance coverage, no-fault laws, PIP, mini-torts, and loss
transfer laws. It covers medical payments coverage and subrogation, uninsured/underinsured motorist
coverage, and subrogation collision property subrogation. Release of tortfeasor by insured accord and satisfaction
accepting partial payments from tortfeasor made whole doctrine, common fund doctrine, economic loss doctrine,
deductible recovery, and reimbursement collateral source rule. Contributory negligence, comparative fault, seat
belt laws, and defenses. Rental cars, loaner vehicles, and test drivers. Bailment, parking lot liability, negligent
entrustment, facing multiple claims in excess of liability policy limits, conflict of laws, interstate subrogation
recovery of attorney's fees, and costs statutes of limitations. It is a complete treatment of virtually every issue which
the insurance claims or subrogation professional will face in the area of automobile insurance. It is like no legal
treatise ever written and promises to be the most used reference in any insurance company.
