Emotional and ethical challenges for field research in Africa: The story behind the findings (2023)

Merlin, the very name evokes intriguing images: magician, wise man, prophet, adviser to Arthur, counsellor of Camelot. The legend is famous, but not the truth that Merlin was a historical figure: a Briton who hailed not from England or Wales as traditional wisdom would have it, but from Scotland. Adam Ardrey brings back to life Merlin's role in the cataclysmic battles between reason and religion of sixth-century Britain. Battles which Merlin would ultimately lose from the time of his death up until the present day.

Historical records relating to Merlin have been altered, his true provenance and importance obscured. His name changed to mean 'madman.' The same fate awaited Merlin's twin sister, Languoreth, as intelligent and powerful as her brother but as a woman, a greater threat to the power of church and state. Languoreth's existence was all but obliterated, and her story lost until now.

Finding Merlin uncovers new evidence and re-examines the old. The places where Merlin was born, lived, died, and was buried are identified. The people surrounding him—his nemesis Mungo and his friend the hero Arthur—are revisited.

there are many dilemmas about dcis and this book tries to clear them up. We know how easy it is to end up more confused after looking at different websites, books, and research results. We present a new way to approach dcis that combines the latest research with practical information. Even though we state things plainly, many scientific resources and references were used to make sure this book is accurate. Please be aware that those resources may use older language that we are learning is not accurate for dcis. For example, dcis lesions do not have the ability to recur, even though this term is commonly used by many scientists and doctors. You will learn about dcis and how it fits into breast diseases including breast cancer. The process of getting diagnosed is also explained as are the different types of treatments that are commonly given for dcis. Risks are also explained clearly. This includes the risk of being diagnosed with dcis as well as the risk of getting another dcis or a future invasive breast cancer. This book also highlights the various kinds of ongoing research for dcis. A list of terms and additional resources and references are included to help you find more detailed information. We hope this book offers useful information to help you make decisions about dcis and look forward to hearing how you use it. Rod didn't know that the voices he hears at night would become stronger when he started serving in church, driving him to take his own life. Will the voices succeed or will he be strong enough to overcome them? This book takes a unique approach to the idea of soul care by comparing it to the concept of home. When we allow Jesus to do a transformational work in our souls, to give us the feeling of home—loved, secure, nourished, accepted, and healing—every day, when we make it a practice to cultivate Jesus' presence within us, we will feel at home in our inner being instead of being spiritually and emotionally homeless. When we cultivate the presence of Jesus and work through key soul care principles, we develop a rhythm of practices that incorporate the spiritual disciplines of feeding on God's word, worship, thanksgiving, listening, prayer, praying scripture, and times of fasting and solitude. It leads our soul home. These practices create an atmosphere that God uses to fill us with more of Himself and His ways. The more of God we have, the more He guides us. We tear down walls of self-protection. We find the truth of who we are in Christ and defeat the attacks of our enemy, Satan. This process brings our soul to the home where it belongs. This book positions these trajectories in a wider social script of mobility and discusses how African migrants are confronted with rigid mobility regimes but also how they manage to transgress and circumvent them. It is incumbent upon man to become aware of the powerful forces that surround him and may be leading him to a possible unexpected outcome. He must come out of complacency and see his purpose for what it is meant to be by the creator. The status quo of oil should be slowly but unequivocally phased out when it first oozed from the ground. It became the driving force of the economy, meant to be that way by God. Man has decided to abuse that purpose by using it to manipulate economies and start wars in the name of peace only to lead man in the path of destruction by the way of an agenda. Man feels he must take control of man contrary to the wishes of God, but man can save himself by bringing about the change that is waiting to be unveiled in the ushering in of free energy. It is real but must be given the proper venue. My life tells a metaphor as a connection like thunder as the voice of God and lightning as the glare of his eyes that foretell a warning though it is so common, man tends not to see the connection. He must look at things differently, it is not for me to judge the creator has the last word on that just as he has the last word in the written prophecies. However, I can suggest though it may not seem but not to dismiss that perhaps it is a destiny to fit within the

Tommy Tenney showed us how we can find restoration and healing after even the most egregious errors and from the most hopeless situations. In Tommy’s new book, ‘The Pilgrimage of Ruth and Naomi to Bethlehem’ is the springboard for Tenney’s message which teaches that many of the things that go wrong in our lives can be resolved or even avoided by adopting some very basic principles. We desperately need to downsize, reprioritize, and sometimes even sacrifice less important things in order to simplify our lives. In doing so, we become unfettered enough to see more clearly where our priorities should lie. We have the tendency to seek temporary satisfaction through a more convenient or accommodating value system. We settle on whatever gives us permission to do...

Finding Mrs. Warnecke tells the inspiring story of Cindi Rigsbee, a three-time teacher of the year, and Barbara Warnecke, the first-grade teacher who had a profound and lasting impact on Cindi's life. Cindi, an insecure child who craved positive attention, started her first-grade year with a teacher who was emotionally abusive and played favorites in the classroom. Two months into the school year, her principal came into the classroom and announced that half the students were being moved to another classroom: a dank, windowless basement room with a young and inexperienced teacher. This change turned out to be the best thing that ever happened to Cindi. Her new teacher, Mrs. Warnecke, made learning come alive for her students, she went overboard caring for each child, making her classroom magical and encouraging students to pursue their dreams. Although Cindi was reluctant to explore her creativity as a student, Mrs. Warnecke encouraged her to read and write poetry, which became a lifelong passion. The two kept in touch for several years but lost track of each other when Mrs. Warnecke moved out of state. Cindi spent many years trying to reconnect so she could thank Mrs. Warnecke for making such a difference in her life, but to no avail. Eventually, Cindi became a teacher herself and thirty years later, she has taught more than 2,000 children and been named teacher of the year for her home state. She later came to realize that all those years, she wasn't really trying to track down Barbara Warnecke, but rather, she was assisting novices, birders of intermediate skill and keen twitchers to find any Australian species.
trying to find Mrs. Warnecke within herself in fall 2008, Cindi and Barbara were reunited on Good Morning America. The show’s producers had tracked Barbara down and brought both women on set for a tearful reunion. Barbara was floored at this attention she had no idea she could have made such an impact on a former student’s life as Cindi travels around talking with new and veteran educators she is always approached by audience members who are moved to tears and want to share the story of the Mrs. Warnecke in their own lives. Finding Mrs. Warnecke not only tells the story of this teacher who made a lifelong impact on her students, it illustrates the importance of the teacher-student relationship in the classroom and offers principles for other teachers to follow to make a positive impact in their own classrooms. This book takes a unique approach to the idea of soul care by comparing it to the concept of home. When we allow Jesus to do a transformational work in our souls, to give us the feeling of home—loved, secure, nourished, accepted, and healing every day—when we make it a practice to cultivate Jesus' presence within us, we will feel at home in our inner being instead of being spiritually and emotionally homeless. When we cultivate the presence of Jesus and work through key soul care principles and develop a rhythm of practices that incorporate the spiritual disciplines of feeding on God's Word, worship and thanksgiving, listening, prayer, praying scripture, and times of fasting and solitude, it leads our soul home. These practices create an atmosphere that God uses to fill us with more of Himself and His ways. The more of God we have, the more He guides us to tear down walls of self-protection, find the truth of who we are in Christ, and defeat the attacks of our enemy, Satan, so that we start walking more as Jesus walked. This process brings our soul to the home where it belongs.

studying the im mobility trajectories of West Africans in the EU this book presents a new approach to West African migrants in Europe. It argues that a migration lens is not necessarily the best starting point to understand these dynamic im mobility processes rather than seeing migrancy as the primary marker of their lives. This book positions these trajectories in a wider social script of mobility and discusses how African migrants are confronted with rigid mobility regimes but also how they manage to transgress and circumvent them.

It is incumbent upon man to become aware of the powerful forces that surround him and may be leading him to a possible unexpected outcome. He must come out of complacency and see his purpose for what it is. It was meant to be by the creator. The status quo of oil should be slowly but unequivocally phased out when it first oozed from the ground. It became the driving force of the economy. It was meant to be that way. God made sure of that. But man has decided today to abuse that purpose by using it to manipulate economies and start wars in the name of peace only to lead man in the path of destruction by the way of an agenda. Man feels he must take control of man.

of God but man can save himself by bringing about the change that is waiting to be unveiled in the ushering in of free energy. It is real but must be given the proper venue. My life tells a metaphor as a connection like thunder as the voice of God and lighting as the glare of his eyes that foretell a warning though it is so common man tends not to see the connection. He must look at things differently. It is not for me to judge; the creator has the last word on that just as he has the last word in the written prophesies. However, I can suggest though controversial it might seem but not to dismiss that perhaps it is a destiny to fit within the context of prophetic events. My inquisitiveness with its very humble beginnings and all of its twists and turns brought me to these times and led me to a quest to seek a truth that must be acknowledged. It is the key to avert war and bring about peace. It is the simple inventions in search of that truth that so many are seeking including me. It is the connection between God and man just as certain as Jesus was his begotten son to serve as the check and balance for the assurance of peace if man chooses and it is the complete story a metaphor that parallels the troubles of man with the possible outcomes and in congruence with the vigilance of the angels who don't sleep but are paying attention. Who will allow peace lest man bring wrath upon himself he is the magnet that holds the truth as is the physical magnet that holds that secret the secret to finding free energy.
in the ultimate comeback Tommy Tenney showed us how we can find restoration and healing after even the most egregious errors and from the most hopeless situations in Tenny’s new book, The Pilgrimage of Ruth and Naomi to Bethlehem is the springboard for Tenney’s message which teaches that many of the things that go wrong in our lives can be resolved or even avoided by adopting some very basic principles. We desperately need to downsize, reprioritize, and sometimes even sacrifice less important things in order to simplify our lives. In doing so, we become unfettered enough to see more clearly where our priorities should lie. We have the tendency to seek temporary satisfaction through a more convenient or more accommodating value system. We settle on whatever gives us permission to do what we want and to acquire what we desire. Ruth possessed the virtues of wisdom, faith, and trust and employing these while enduring personal crisis, she realized that the very things she needed for inner strength and support were her family traditions. What we find on this journey is that these foundational tenets lead us down a path to a place of peace and contentment to the things that really matter.

Finding Mrs Warnecke tells the inspiring story of Cindi Rigsbee, a three-time teacher of the year, and Barbara Warnecke, the first-grade teacher who had a profound and lasting impact on Cindi's life. Cindi, an insecure child who craved positive attention, started her first-grade year with a teacher who was emotionally abusive and played favorites. Two months into the school year, her principal came into the classroom and announced that half the students were being moved to another classroom, a dank, windowless basement room with a young and inexperienced teacher. This change turned out to be the best thing that ever happened to Cindi. Her new teacher, Mrs. Warnecke, made learning come alive for her students. She went overboard caring for each child, made her classroom magical, and encouraged students to pursue their dreams. Although Cindi was reluctant to explore her creativity as a student, Mrs. Warnecke encouraged her to read and write poetry, which became a lifelong passion. The two kept in touch for several years but lost track of each other.

When Mrs. Warnecke moved out of state, Cindi spent many years trying to reconnect so she could thank Mrs. Warnecke for making such a difference in her life but to no avail. Eventually, Cindi became a teacher herself and thirty years later, she has taught more than 2,000 children and been named Teacher of the Year for her home state. She later came to realize that all those years she wasn’t really trying to track down Barbara Warnecke but rather, she was trying to find Mrs. Warnecke within herself. In fall 2008, Cindi and Barbara were reunited on Good Morning America. The show’s producers had tracked Barbara down and brought both women on set for a tearful reunion. Barbara was floored at this attention she had no idea she could have made such an impact on a former student’s life. As Cindi travels around talking with new and veteran educators, she is always approached by audience members who are moved to tears and want to share the story of their own Mrs. Warnecke. Finding Mrs. Warnecke not only tells the story of this teacher who made a lifelong impact on her students, it illustrates the importance of the teacher-student relationship in the classroom and offers principles for other teachers to follow to make a positive impact in their own classrooms.
