The Body 2007-11-01 cultural writing poetry essays comprised of footnotes to a non existent text the body an
essay is a meditation on absence loss and disappearance that offers a guarded narrative of what may or may
not be a love letter a dream a spiritual autobiography a memoir a scholarly digression a treatise on the
relation of life to book christian bok describes boully s groundbreaking text as one that may simply annotate
a fantastic biography from another reality referring only to itself as a kind of dream within a dream the reader
can only fantasize about the original contexts that might have made such information significant to its author
and ultimately implies that the body of any text consists of nothing but a void filled with the exegetical
projection of our own imagination first published in 2002 and excerpted in such anthologies as the next
american essay and the best american poetry 2002 the body an essay continues to challenge conventional
notions of plot and narrative genre and form theory and practice unremittingly questioning the presumptive
boundaries between reflection imagination and experience
The Body in Everyday Life 1998 i have been exiled from my body i was ejected at a very young age and i
got lost playwright author and activist eve ensler has devoted her life to the female body how to talk about it
how to protect and value it yet she spent many years disassociated from her own a disconnection brought on
by her father s sexual abuse and her mother s remoteness while working in the congo ensler is shattered to
encounter the horrific rape and violence inflicted on the women there soon after she is diagnosed with uterine
cancer and through months of treatment she is forced to become first and foremost a body pricked punctured
cut scanned it is then that all distance is erased as she connects her own illness to the devastation of the earth
her life force to the resilience of humanity she is finally fully and gratefully joined to the body of the world
The Body in Question 2007-01-24 these essays bring together disciplinary understandings of what it is to be the bodies we are in its own way each essay calls into question certain culturally embedded ways of valuing the body which deride or ignore its role in making us human these ways have remained virtually unchanged since descartes in the seventeenth century first sharply divided mind a thinking substance from the body an extended substance the legacy of this cartesian metaphysics has been to reduce the body by turns to a static assemblage of parts and to a dumb show of movement it has both divided the fundamental integrity of creaturely life and depreciated the role of the living body in knowing and making sense of the world in learning in the creative arts and in self and interpersonal understandings the living sense of the body and its capacity for sense making have indeed been blotted out by top heavy concerns with brains minds and language as if these existed without a body it is this conception of the body as mere handmaiden to the privileged that the contributors to this book challenge by the evidence they bring forward they help restore what is properly due the body since descartes convinced us that mind and body are separate and that mind is the primary value moreover they help to elucidate what is properly due the body since the more recent twentieth century western emphasis upon vision effectively reduced the richness of the affective and tactile kinesthetic body the body of felt experience to a simple sum of sensations dominant themes that run throughout the essays and that call our attention to the living sense of the body and its capacity for sense making are wholeness the capacity for self healing cultural histories of the body pan cultural bodily invariants thinking emotions and the body s wisdom in the end these themes show that giving the body its due means forging a metaphysics that upholds the truths of experience

Thinking the Limits of the Body 2012-02-01 the past few decades have seen growing interest in the study of the body however the increasing number of exciting and influential publications has primarily if not exclusively focused on the body in western cultures the various works produced by asian scholars remain largely unknown to western academic debates even though asia is home to a host of rich body cultures and religions the peoples of asia have experienced colonization decolonization and now globalization all of which make the body in asia a rewarding field of research this unique volume brings together a number of scholars who work on east southeast and south asia and presents original and cutting edge research on the body in various asian cultures
