Mike mulligan and his steam shovel by burton virginia lee 1939 hardcover Copy

A modern classic that no child should miss since it was first published in 1939 Mike Mulligan and His Steam Shovel has delighted generations of children. Mike and his trusty steam shovel Mary Anne dig deep canals for boats to travel through, cut mountain passes for trains, and hollow out cellars for city skyscrapers. The very symbol of industrial America, but with progress come new machines and soon the inseparable duo are out of work. Mike believes that Mary Anne can dig as much in a day as one hundred men can dig in a week, and the two have one last chance to prove it and save Mary Anne from the scrap heap. What happens next in the small town of Popperville is a testament to their friendship and to old-fashioned hard work and ingenuity. The Black Country is an area historically known as the cradle of the industrial revolution—a thriving region built around deep coal seams conjuring up images of fiery red furnaces by night and black sooty citadels by day. Yet today the resource-rich region also features many striking public sculptures. This volume provides a comprehensive catalog to all of the historic sculptures and public monuments in Staffordshire and the Black Country. George Noszlopy and Fiona Waterhouse catalog each individual sculpture in detail, including information about the sculptor, the sculpture’s historical and artistic significance, the commissioning agent, and the date of installation. The volume also features 350 black and white photographs that document the diverse and rich beauty of the region’s public monuments. This volume is an invaluable resource for British historians, art scholars, and travelers alike.

Jake Reynolds is an art thief, a master artist who can create an exact replica of any famous canvas in intricate detail so precise and elegant is his work that even today hanging on the walls of the most prestigious museums and art galleries around the world are some of his brilliant recreations. It's the early 20th century and this brilliant criminal is destined to rub shoulders with the famous and infamous from Churchill to Mengele, Wright brothers to Picasso in one fashion or another, he would know them all but for a lucky and daring man, Jake is plagued with one unlucky debilitating weakness—every time he stumbles upon the corpse of a murder victim, a peculiar sense of outrage takes over him even though he's a criminal himself and something within him rebels at the thought of a murderer getting away after committing such a heinous crime. Compelled by this, Jake is determined to find any killer that comes across his way and bring them to justice, and when they do, Jake has no choice. The hunt is on. Whoever said fate smiled upon the unlucky a compelling historical mystery, Death of a Young Lieutenant is the first book in B.R. Stateham's Jake Reynolds Mysteries series.

This volume brings together studies, research, syntheses, and critical commentaries that examine play, literacy relationships, from cognitive, ecological, and cultural perspectives. The cognitive view focuses on mental processes that appear to link play and literacy activities. The ecological stance examines opportunities to engage in literacy-related play in specific environments, and the social-cultural position stresses the interface between the literacy and play cultures of home, community, and the school. Examining play from these diverse perspectives provides a multidimensional view that deepens understanding and opens up new avenues for research and educational practice. Each set of chapters is followed by a critical review.
