for a return to moral education in our schools has raised more dust than it s dispelled building
upon his provocative ideas in on becoming responsible michael pritchard clears the air with a
sensible plan for promoting our children s moral education through the teaching of
reasonableness pritchard contends that children have a definite but frequently untapped
capacity for reasonableness and that schools in a democratic society must make the
nurturing of that capacity one of their primary aims as fundamental to learning as the
development of reading writing and math skills reasonableness itself he shows can be best
cultivated through the practice of philosophical inquiry within a classroom community in such
an environment children learn to work together to listen to one another to build on one
another s ideas to probe assumptions and different perspectives and ultimately to think for
themselves advocating approaches to moral education that avoid mindless indoctrination and
timid relativism pritchard neither preaches nor hides behind abstractions he makes liberal
use of actual classroom dialogues to illustrate children s remarkable capacity to engage in
reasonable conversation about moral concepts involving fairness cheating loyalty truth telling 
lying making and keeping promises obedience character and responsibility he also links such 
discussions to fundamental concerns over law and moral authority the roles of teachers and 
parents and the relationship between church and state pritchard draws broadly and deeply 
from the fields of philosophy and psychology as well as from his own extensive personal 
experience working with children and teachers the result is a rich and insightful work that 
provides real hope for the future of our children and their moral education this book contains 
three full length verbal and quantitative practice tests to prepare students in grades 2 and 3 
to take the elementary school and college ability test scat administered by the johns hopkins 
center for talented youth cty it is an above grade level test that assesses math and verbal 
reasoning abilities among gifted children and assesses students at a higher grade level than 
the one they are in at the time the test is administered elementary scat tests are designed at 
grades 4 and 5 the two sections for testing math and verbal reasoning are each 22 minutes 
long separated by a 10 minutes break and there are 55 multiple choice questions per section

the public outcry for a return to moral education in our schools has raised more dust than it's dispelled building upon his provocative ideas in on becoming responsible michael pritchard clears the air with a sensible plan for promoting our children's moral education through the teaching of reasonableness pritchard contends that children have a definite but frequently untapped capacity for reasonableness and that schools in a democratic society must make the nurturing of that capacity one of their primary aims as fundamental to learning as the development of reading writing and math skills reasonableness itself he shows can be best cultivated through the practice of philosophical inquiry within a classroom community in such
an environment children learn to work together to listen to one another to build on one another’s ideas to probe assumptions and different perspectives and ultimately to think for themselves advocating approaches to moral education that avoid mindless indoctrination and timid relativism. Pritchard neither preaches nor hides behind abstractions; he makes liberal use of actual classroom dialogues to illustrate children’s remarkable capacity to engage in reasonable conversation about moral concepts involving fairness, cheating, loyalty, truth-telling, lying, making and keeping promises, obedience, character, and responsibility. He also links such discussions to fundamental concerns over law and moral authority, the roles of teachers and parents, and the relationship between church and state. Pritchard draws broadly and deeply from the fields of philosophy and psychology as well as from his own extensive personal experience working with children and teachers. The result is a rich and insightful work that provides real hope for the future of our children and their moral education.
