There is a growing interest in human security in Southeast Asia. This book firstly explores the theoretical and conceptual basis of human security before focusing on the region itself. It shows how human security has been taken up as a central part of security policy in individual states in Southeast Asia as well as in the regional security policy within the Association of Southeast Asian Nations (ASEAN). The book discusses domestic challenges for human security including the insurgencies in Southern Thailand, the Philippines, and Indonesia. Transnational security issues such as terrorism, drugs, human trafficking, and the situation in Burma are explored by the author. The ASEAN way of contrasting the values and approaches of Southeast Asian countries with those in the West is assessed by focusing on the ongoing changes and efforts to achieve human security in Southeast Asia. This book contributes to theoretical debates on human security as well as regional studies on Southeast Asia.

The American century began with the Spanish-American War. In that conflict’s aftermath, the United States claimed the Philippines in its bid for world power. Before the ink on the treaty with Spain had dried, the war in the Philippines turned into a violent rebellion after two years of fighting, U.S. forces launched an audacious mission to capture Philippine President and rebel commander in chief Emilio Aguinaldo.

Invidious distinctions on the basis of race and overt racism were central features in American colonial policy in the Philippines from 1898 to 1947 as America transported its domestic racial policy to the island colony. This collection by young Filipino scholars analyzes American colonialism and its impact on administration and attitudes in the Philippines through the prism of American racial tradition. A structural concept which refers to beliefs, attitudes, images, classifications, laws, and social customs that shape race relations and racial formation in multiracial and colonial societies. The dominance of this tradition was manifested in the wanton prerogatives of the U.S. Congress and others who helped to carry out colonial policy in the region. The Spanish flexible racial tradition had resulted in a system based on ethnicity and class as determinants of social and economic structure, while the rigid U.S. racial tradition assigned race the more dominant role. The cultural affinity between the early individual American administrators and the Filipino elite however meant that class based distinctions in the islands were not broken up thus the extreme elitist character of the Philippines economy and society persisted and became impervious to the influences which in other Asian nations moved more quickly to relax them.

from the foreword Rose Engcoy's insightful study of the life and ministry of Rodrigo Rudy Esperanza is important for two reasons the first is that all of us have much to learn from Rev. Esperanza's example after all he was one of the pioneers of Pentecostalism in the Philippines his work as a church planter pastor educator and long time senior administrator of the Philippines General Council of the Assemblies of God PGCAG was vitally important to that denomination's early success which has situated it in the front ranks of the community of spirit filled believers in his beloved homeland Rev. Esperanza a veteran ecclesiastical firefighter who doused the flames of many a conflict that threatened to disrupt the PGCAG's unity not only helped to pilot the United Pentecostal Fellowship but also led his fellow Pentecostals in collaboration with non Pentecostal Evangelicals in a range of evangelistic and ministry activities that went a long way toward allaying
suspicion on both sides. Growing churches are always the most vulnerable to conflict and schism. So Christians who long for unity in the body of Christ can learn a lot from Rev. Esperanza's book. This book will help with that, but Dr. Engcoy's study is important for another reason as well. Today, the Christian community is growing rapidly in Asia, especially East Asia, rivaling the explosive growth of the church in Africa. Riding the crest of the wave are Pentecostal denominations like the PGCAG. This study of Rudy Esperanza and the early years of the PGCAG gives us a very good idea of what lies ahead for Philippine Protestantism. I find that enormously encouraging.

The war in the Philippines turned into a violent rebellion after two years of fighting. U.S. forces launched an audacious mission to capture Philippine president and rebel commander in chief Emilio Aguinaldo using an elaborate ruse. U.S. army legend Frederick Fighting Fred Funston orchestrated Aguinaldo's seizure in 1901. Capturing Aguinaldo is the story of Funston's gambit to catch Emilio Aguinaldo and the United States conflicted rise to power in the early twentieth century. The United States war with Spain in 1898 had been quick and for the Americans in the Philippines virtually bloodless, but by early 1899 Filipino nationalists who had been fighting the Spaniards for three years and expected Spain's defeat to produce their independence were fighting a new imperial power. The United States the Filipinos eventually abandoned conventional warfare switching to guerilla tactics in an ongoing conflict rife with atrocities on both sides. By March 1901 the United States was looking for a bold strike against the nationalists. This book talks about the cause of continues terrorism in the Philippines. Some biblical research reveals that the greed or the love of money and power are the root cause of all evil desire as mentioned in the holy scripture. The Bible findings also show that illiteracy and less education made people short-sighted in life and narrow-mindedness prone to terrorism and rebellious ideology. While this book reveals huge amounts of military assistance to the Philippines from different countries, particularly from the United States and other nations, it turned the government officials and military corrupt. The US military aid leads to dependence and corruption in the government or military that seem to fan the fire of terrorism rather than ending it. GAOS recommendation requires government accountability and comprehensive policy to make sure anti-terrorism funds will be used as intended.
