Regulation of electronic communications in the EU member states is increasingly driven by European legislation. This title collects the key European legislation and other instruments pertinent to the electronic communications sector and in some cases is annotated by Francesco Liberatore and his colleagues at global law firm Squire Patton Boggs. The timing of this title is particularly opportune as it includes the new EU Electronic Communications Code Directive, the Commission's guidelines on market analysis, and its recommendation on relevant markets. Significant measures from other directives, Commission decisions, and recommendations are integral to the regulatory framework. The BEREC Common Position on Remedies and other BEREC texts are included.
