economic power to silence transformative threads this rise of culture as development corresponded with the global rise of neo liberal
governmentality incorporating culture as a tool for globally reproducing the logic of capital using examples of transformative social change
interventions this book emphasizes the role of culture as a site for resisting capitalism and imagining rights based sustainable and socialist futures
in particular it attends to culture as the basis for socialist organizing in activist and party politics in doing so culture participation and social change
offers a framework of inter linkage between marxist analyses of capital and cultural analyses of colonialism it concludes with an anti colonial
framework that re imagines the academe as a site of activist interventions

Hidden Messages in Culture-Centered Counseling 1999-12-01

hidden messages in culture centered counseling offers the first comprehensive overview of the triad training model for counselor education first
introduced by paul b pedersen about twenty years ago this model has been widely used across counseling and counselor education programs
both in university settings and in continuing education workshops the theory behind the triad training model has been touched on in other literature
but nowhere has it been brought together and presented in a unified format in this text he presents the theoretical underpinnings of the model
drawing from counseling but also social psychology and other fields also shown are the major applications of the model in counselor training and
education some of the nontraditional applications and a demonstration of its flexibility to a wide range of professional practical clinical and
academic contexts pedersen offers a wide ranging review of the key literature on the model its applications and the various theoretical currents
from which it derives

The American way of producing health is failing. It continues to rank very low among developed countries on our most vital need to live a long and healthy life despite the well-intentioned actions on the part of government life sciences and technology. The most important resource for achieving our full health potential is ourselves. This book is about how you can do so and how others can help you. Dwight McNeill introduces Person-centered Health Analytics (PCHA) and shows how you can use it to master five everyday behaviors that cause and perpetuate most chronic diseases. Using person-centered health analytics to live longer combines deep insight, a comprehensive framework, and practical tools for living longer and healthier lives. It offers a clear path forward for both individuals and stakeholders including providers, payers, health promotion companies, technology innovators, government, and analytics practitioners.
