A Digest of Decisions in Scottish Shipping Cases, 1865–90 1891

A beginner’s manual especially geared to the needs of entry level riders this book provides all the basic instruction necessary to become a motorcycle rider with an emphasis on the challenges faced by neophyte riders starting at neophyte level and evolving into a serious intelligent expert how to ride a motorcycle tells the reader how to be a motorcycle rider with a strong emphasis on safety and big picture strategy think about it this way as opposed to do this
**Special Report 1961**

This volume explores the professional English theatre from 1530 to 1660. The documents collected here—many published for the first time—chronicle the exciting and flourishing world of the theatre through the reigns of Henry VIII to Charles I. These exciting primary sources offer first-hand accounts including the daily life and work of the actor and the most complete coverage yet of all the playhouses both public and private, including the Rose, the Globe, Red Lion, and the Swan. The volume documents the various theatre companies, costumes, stage properties, matters, audience reception, and behaviour in ecclesiastical and governmental legislation. A full linking narrative and extensive bibliography detailing the location of the primary sources provide an important reference work and valuable research tool.

**Special Report - Highway Research Board 1961**

The top 9,500 publicly traded companies on the New York Nasdaq and OTC exchanges all have assets of more than 5 million and are filed with the SEC. Each entry describes business activity, 5-year sales, income, earnings per share, assets, and liabilities. Senior employees and major shareholders are named. Seven indices give unrivalled access to the information.
American Motorcyclist 1996-01

Results are presented of 412 load tests compiled in a condensed form the records are classified and indexed in accordance with type of pile general type of soil and locality by means of these indices records can be located that may be of interest in judging the probable behavior of piling under somewhat similar conditions load settlement curves corresponding to the individual tests are shown in pile test data sheets results of various load tests have been compared on the basis of the shear strength actually developed between the pile and the soil during the tests the shear strength has been calculated by dividing the failure load in each test by the embedded area of the pile in the case of h piles the embedded areas have been calculated on the assumption that failure occurs on the sides of the rectangular prism enclosing the pile section results of these calculations are presented.
