Small Tractor Service Manual 1975

fire service technology equipment and media

Outboard Motor Service Manual 1983

incidents involving rescue from road vehicles are dramatically increasing in frequency there are some 3500 deaths on the road each year with 35 000 serious injuries modern motor vehicles are becoming safer for occupants due to advancement in technology so persons are more likely to survive high impact speeds but are also more likely to become entrapped the fire and rescue service as the primary rescue service requires national guidance to ensure a similar standard of response anywhere in the uk this manual is designed to highlight current best practice with regard to vehicle rescue techniques and first responder trauma care each chapter forms an independent reference source but the publication as a whole forms a complete guide chapters cover vehicle design and construction dealing with incidents safety procedures operational procedures extrication equipment medical considerations and trauma care integrated personal development system i p d s appendices cover highways agency fire and rescue service memorandum of understanding training and general information and emergency services personnel esp aide mémorial the cd rom vehicle extrication techniques is a multi media guide to rescue tool handling and extrication techniques

Foreign Service Manual 1949

training for firefighters must be planned so that they experience reasonably realistic situations in which they encounter the hazards likely to be met in operational incidents whilst the risk of resultant injury is controlled and all unnecessary risks avoided one hazard is that of high environmental temperature which can present an acute risk of burn injury eg through contact with hot debris and a less acute risk of physiological heat stress it is this latter risk which is addressed in this document the guidance is based on a study of environmental temperatures during training sessions together with the resultant body temperatures of those taking part measures outlined include pre exposure procedures monitoring and control procedures during training post exposure control an appendix describes the effects of heat on the body and heat related disorders
