rick beyer, the author of the acclaimed History Channel series The Greatest Stories Never Told, returns with new historic tales this time focusing on amazing war stories. Search the annals of military history, and you will discover no end of quirky characters and surprising true stories, such as the topless dancer who saved the Byzantine Empire, the World War I battle that was halted so a soccer game could be played, the scientist who invented a pigeon-guided missile in 1943, and don't forget the elderly pig whose death triggered an international crisis between the United States and Great Britain. This is the kind of history you'll find in The Greatest War Stories Never Told—one hundred fascinating stories drawn from two thousand years of military history, accompanied by a wealth of photographs, maps, drawings, and documents that help bring each story to life. Little known tales told with a one-two punch of history and humor that will make you shake your head in disbelief but are all true. Did you know that one military unit served on both sides during the Civil War, the War of Jenkins's Ear was actually fought over a sea captain's ear, Daniel Boone was once tried for treason, a siege on Poland in 1519 gave birth to the marriage of bread and butter, discover how war can be a catalyst for change, an engine for innovation, and an arena for valor, deceit, intrigue, ambition, revenge, audacity, folly, and even silliness. Want to know how the mafia helped the United States win World War II when the word bazooka was coined or how silly putty was invented? Read on.

this volume is the first in-depth study of a recently discovered Sanskrit Dharani spell text from around the 5th century CE surviving in two palm leaf and three paper manuscript compendia from Nepal. This rare Buddhist scripture focuses on the ritual practice of thaumaturgic weather control for successful agriculture through overpowering mythical nagas. Traditionally, these serpentine beings are held responsible for the amount of rainfall. The six chapters of the Vajratundasamayakalparaja present the Vidyadhara spell master as a ritualist who uses mandalas, mudras, and other techniques to gain mastery over the nagas and thus control the rains by subjugating the nagas. Favorable weather and good crops are guaranteed—this links this incantation tradition to economic power and the securing of worldly support for the Buddhist community.
