turned Lyndon B. Johnson’s War on Poverty into a battle for equality. Koreans countered the city’s and the nation’s exclusionary policies and asserted their welfare rights. Tsuchiya’s work exemplifies transnational antiracist networking showing how black religious leaders traveled to Japan to meet Christian Korean activists and to provide counsel for their own struggles. Reinventing Citizenship reveals how race and citizenship transform as they cross countries and continents by documenting the interconnected histories of African Americans and Koreans in Japan. Tsuchiya enables us to rethink present ideas of community and belonging.

in elusive equality jeffrey l littlejohn and charles h ford place norfolk virginia at the center of the south’s school desegregation debates tracing the crucial role that norfolk’s african americans played in efforts to equalize and integrate the city’s schools the authors relate how local activists participated in the historic teacher pay parity cases of the 1930s and 1940s how they fought against the school closures and massive resistance of the 1950s and how they challenged continuing patterns of discrimination by insisting on crosstown busing in the 1970s and 1980s despite the advances made by local activists however littlejohn and ford argue that the vaunted
urban advantage supposedly now enjoyed by norfolk's public schools is not easy to reconcile with the city's continuing gaps and disparities in relation to race and class in analyzing the history of struggles over school integration in norfolk the authors scrutinize the stories told by participants including premature declarations of victory that laud particular achievements while ignoring the larger context in which they take place their research confirms that norfolk was a harbinger of national trends in educational policy and civil rights drawing on recently released archival materials oral interviews and the rich newspaper coverage in the journal and guide virginian pilot and ledger dispatch littlejohn and ford present a comprehensive multidimensional and unsentimental analysis of the century long effort to gain educational equality a historical study with contemporary implications their book offers a balanced view based on a thorough sober look at where norfolk's school district has been and where it is going
