Housing, Family, and Society 1978 in context of ongoing transformations in housing markets and socioeconomic conditions this book focuses on past current and future roles of home ownership in social policies and welfare practices it considers owner occupied housing in terms of diverse meanings and manifestations but in particular the part played by housing tenure in the political socioeconomic and demographic changes that have characterized the pre and post crisis era the intensified promotion of home ownership in recent decades helped stimulate an increasing orientation towards the private consumption of housing not only as a home but also an asset or possibly speculative vehicle that enhances household economic capacity and can be transferred to children or other family or even exchanged for other goods the latest global financial crisis however made it clear that owner occupied housing markets and mortgage sectors have become deeply embedded in networks of socioeconomic interdependency and risk this collection engages with numerous debates on housing and society in a range of developed societies from north america to asia pacific to north south east and west europe interdisciplinary contributors draw upon diverse empirical data to explore how housing and home ownership has become so embedded in polity economy and household welfare conditions in various social and cultural contexts another concern is what lies beyond home ownership considering the integration of housing systems with economic growth and social stability appears to be unravelling this volume speaks to public debates concerning the future of housing markets policy and tenure providing deep and provocative insights for academics students and professionals alike

Beyond Home Ownership 2012-03-12 in a globalising world many mature economies share post growth characteristics such as low economic growth low fertility declining and ageing of the population and increasing social stratification japan stands at the forefront of such social change in the east asian region as well as in the global north it is in this context of post growth society that housing issues are examined using the experiences of japan at the leading edge of social transition in the region the post war housing system was developed during the golden age of economy and welfare when upward social trajectories such as increasing population high speed economic growth with rising real incomes housing construction driven by high demands increasing rates of home ownership supported by generous government subsidies generated new housing opportunities and accompanying issues as we have entered the post growth phase of socio economic
development however it requires a re examination of such structure policy and debates this volume explores what roles housing plays in the reorganisation and reconstruction of economic processes social policy development ideology and identity and intergenerational relations the volume offers a greater understanding of the characteristics of post growth society changing demography economy and society in relation to housing it considers how a definitive shift to the post growth period has produced new housing issues including risks as well as opportunities through analysis of the impact on five different areas post crisis economy urban and regional variations young adults and housing pathways fertility and housing and ageing and housing wealth the authors use policy and institutions as overarching analytical tools to examine the contemporary housing issues in a post growth context it also considers any relevance from the japanese experiences in the wider regional and global context this original book will be of great interest to academics and students as well as policy makers and practitioners internationally in the fields of housing studies urban studies social policy sociology political economy comparative analysis and east asian studies
